Capabilities

Why AWS & Why Lemongrass : Managing Our Risk

- 7000+ SAP customers on AWS

- Trusted by SAP with co-innovation

- More SAP BTP services available today

- Gartner Cloud Leader for last 12 years

- Large Eco-system of partners

- CFA is new to cloud

- SAP Roadmap for CFA is emerging

- CFA Lack of cloud skills

- AWS recommendation : Premier Partner
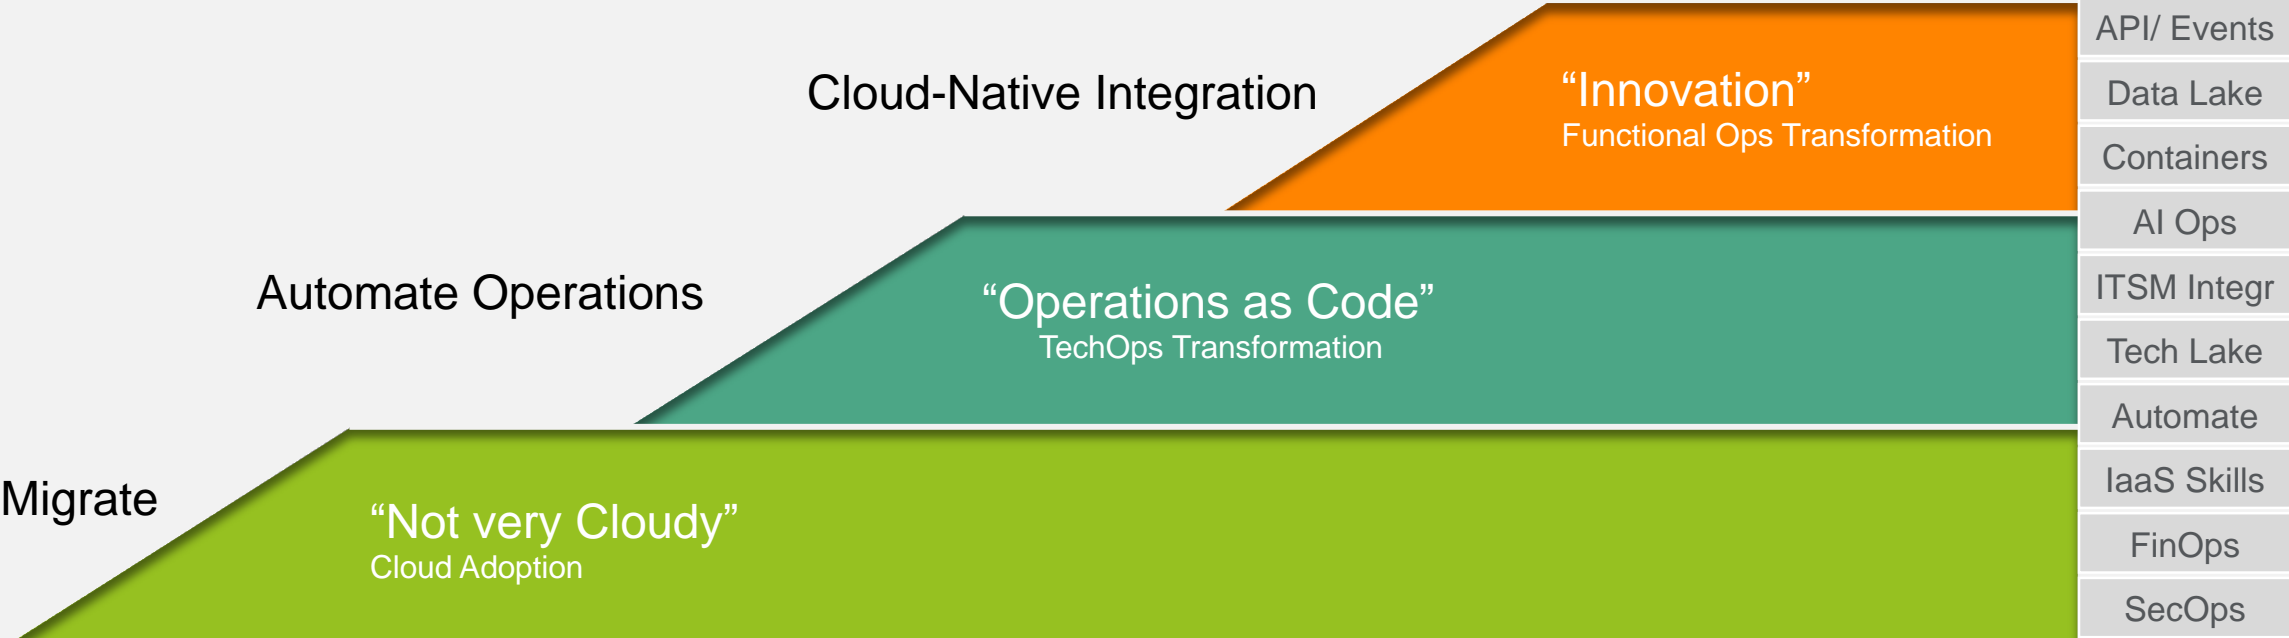

Where are we now?

- CFA licences novation complete

- SAP Installation transfer being finalised

- CFA AWS Environment built

- Migration UAT In-Progress & On-track

- Preparing for PROD cutover

- Business case for S4H being prepared

Lessons Learnt

- SAP Licensing – FRV novation took time

- Migrate to Operate and Operate to Innovate

- It is possible to move SAP to cloud in practical steps with good advice

- Automation is more than formation scripts – it's key to making SAP 'more cloudy'

- Leverage a reseller if new to cloud spend management

Questions from the Audience
